

Dove Vinyl Windows

**Vinyl Sliding
Patio Door**

Sliding Patio Door for the New Construction and Replacement Market

Aesthetically pleasing, affordable and designed for maximum protection in the harshest climates.

Features & Benefits

- Mechanical frame and welded sash for maximum strength.
- Sash stiles and rails are reinforced with steel for lasting durability.
- Integral 1/4" nailing fin is located 1/4" from frame exterior for easy installation. Nailing flange easily removable for retrofit.
- Adjustable, corrosion resistant rollers provide smooth operation of the sash panel.
- Integral interlocking meeting rails for optimum protection against air infiltration.
- Easyslide, heavy-duty fiberglass screen.
- 1" tempered glass panels are tape glazed for structural integrity.
- Dual weatherstripping around perimeter of sash protects against air and water infiltration.
